

IMPROVE WEBSITES

- 1)current existing file Upcomming.php to admin.php
- 2)thats file I mean upcomming.php movies only view in index.php upcoming.php
- 3)upcoming.php add date to booking option video name and seat selected for exam current date is 09-11-2025 I booked december 12th released movie first day booking 12 date choose and seat choose option add
- 4) this booking extra charge 20 add
- 5) payment more clarify add
- 6)conformation current slots seat maybe person selected upcoming.php 09-11-2025 booked seat no 1. 12 december other person book time not show 1 seat i mean that seat all ready booked
- 7)this method all check currect and add sqls
- 8)if click example if booked thor 1 movie click time seats section 1 sow(1 to 200 seat in one section)
If click iron man booking other section showing section 2(1 to 200 seats) showing
- 9)movie are 30 only showing that's the 30 days transactions history include all payments details and total amounts with movies name
- 10)new qr generated booked person seats and name include qr online bill providing to client. After showing time client scan time bill print to client
